**Mobile based radars using Eclipse IDE with OpenStreetMap for Algorithm to reduce glint induced radar tracking errors on a highly** Radar Detection and Tracking Systems (Acoustics & signal processing library) by Shahan A. Hovanesian (1973-12-01) [Shahan A. Hovanesian] on **High Accurate Multiple Target Detection in PCL Radar Systems** The design technique of signal processing of sky wave OTH-B radar is presented system and the characteristic of signal processing when detecting ship targets Published in: Acoustics, Speech, and Signal Processing, 1994. **Low power High Frequency Surface Wave Radar application for ship detection and tracking. New approach to improved detection and tracking performance in** IEEE Xplore Digital Library IEEE-SA IEEE Spectrum More Sites **High Accurate Multiple Target Detection in PCL Radar Systems** radars based on TV and radio ambiguity function processing is presented. filters, Signal processing algorithms, Radar tracking, Radar signal processing, Radar scattering. **Multitarget detection/tracking of echoes with known waveform** IEEE Xplore Digital Library IEEE-SA IEEE Spectrum More Sites The whole signal processing steps needed in through-wall radar imaging (TWRI) are Its effect in detection and tracking of moving target is illustrated by the results of radar. Published in: Intelligent System Design and Engineering Application **Acoustic Micro-Signatures: New Extraction Concepts - IEEE Xplore** Multitarget detection/tracking of echoes with known waveform: algorithm and applications Published in: Acoustics, Speech, and Signal Processing, 1997. **Modern Digital Matched Filters and Correlators for Active Radar** of radar systems with enhanced performance in target detecting and tracking IEEE Xplore Digital Library IEEE-SA IEEE Spectrum More Sites on the transmitter architecture and on the type and properties of transmit signals. In the process of evaluation a new strategy with adaptive framework for tracking **Tracking manoeuvring targets with a low probability of detection in** This paper is concerned with tracking a group of separating targets, using possibly performs single-scan-based signal processing to generate, as a recently-developed or from which a single detection originates, a new kind of tracking approach based on the Published in: Signals, Systems and Computers, 2006. **Low rank adaptive signal processing for radar applications - IEEE** Acoustic Micro-Signatures: New Extraction Concepts. Published in: Signals, Systems and Computers, 2005. Signal processing of sensor node data for vehicle detection Acoustic sensors have become the sensor of choice for Unattended Ground Sensor (UGS) applications such as ground vehicle detection and tracking. **Detection and Tracking of Moving Target behind Wall Using UWB** Abstract: The acoustic signal processing system is the most important part of the underwater target tracking system. This paper presents the hardware design of **Tracking Separating Targets with Possibly Merged Measurements** Modern Digital Matched Filters and Correlators for Active Radar for the fissile radar-tracking system operating a broadband noise signal with direct orientation In the article the example construction of a channel of processing on the basis of Acoustic noise, Shift registers, Digital signal processing chips, Radar signal **Acoustic signal processing techniques for container security - IEEE** Cognitive Radar describes a generic radar system that is capable of sensors[1] in order to achieve superior detection, recognition and tracking of targets. For example, the sensors of a cognitive radar system might use the illumination signals to . and sophisticated signal processing to sense the environment and adapt its **A hybrid approach to target tracking - IEEE Xplore Document** Digital processing of signals, especially fast Fourier transform (FFT) Published in: IEEE Transactions on Acoustics, Speech, and Signal Processing ( Volume: Abstract: The paper is mainly concerned with detection of an accelerating target echo by FMCW radar. The processed signal is modeled as a polynomial phase **Guest editorial special issue on monte carlo methods for statistical** An algorithm using a nonparametric rank detector is developed to detect and censor glint spikes Published in: Communications and Signal Processing, 1991. **Academic Press Library in Signal Processing: Array and Statistical - Google Books** **Result** Parameter optimization for agile beam radar tracking is considered to as well as the sequence of pairs of target signal strengths and detection thresholds **Spatial-Temporal Differential Analysis for GMTD with Airborne** IEEE Xplore Digital Library IEEE-SA IEEE Spectrum More Sites **Spatial-Temporal Differential Analysis for GMTD with Airborne Radars, Part 1: Theoretical Background** new approach to processing multiple synchronized radar signals. To improve the radar detection and tracking capabilities, STDA takes **Test and evaluation of a midwater three dimensional underwater** To support long term growth, an underwater tracking system capable of Pulse detection and arrival time are determined using a combination of in band and **The variable law detector - IEEE Xplore Document** Abstract: Estimation based on received signal strength (RSS) is crucial in sensor networks for sensor localization, target tracking, etc. In this paper, we present a **Using a Configurable Integrated Sensing And Processing Imager to** : Radar Detection and Tracking Systems (Acoustics & signal processing library): 0890060185 Special order direct from the

distributor. **Underwater target active tracking system based on DSP and FPGA** Reliable methods for detection of cargo container intrusions are difficult to find, Published in: Signal Processing Solutions for Homeland Security, 2005. **Hybrid diversity strategy using MIMO radar for target tracking - IEEE** Radar Detection and Tracking Systems (Acoustics & signal processing library) [Shahan A. Hovanesian] on . \*FREE\* shipping on qualifying offers. **Radar Detection and Tracking Systems (Acoustics & signal** IEEE Xplore Digital Library IEEE-SA IEEE Spectrum More Sites This map can be used as a reliability metric for target detection algorithms. Published in: Signal Processing and Communications Applications Conference (SIU), 2013 Design and implementation of a fully automated OTH radar tracking system. **Factorized variational approximations for acoustic multi source** A new technique for tracking manoeuvring targets with a low probability of Published in: IEE Proceedings F - Radar and Signal Processing ( Volume: 137 **Parameter Optimization for Load-Optimal Agile Beam Radar Tracking** Array and Statistical Signal Processing. 3.10.2.8. Source. Localization. and. Tracking. The classical DOA estimation problem uses coherent data sampled First, active sensing using radar is considered, and several special issues such as Global Navigation Satellite System (GNSS) from an array processing perspective.
