

PYTHON: Learn Python Programming in 90 minutes or Less! (Python, Learning Python, Python Programming, Python Tutorial, Python Programming for Beginners, Python for Dummies Book 1)

Quick and Easy Way to Learn Python
What does Google Know That You Dont?
Python is a powerful language that powers one the most influential tech companies in the world. Learning Python doesnt require an expensive degree of years of study. With this quick start guide you can master the fundamentals for less than the cost of lunch and in as little in a few days. Here is what Google co-founder Peter Norvig said about Python: Python has been an important part of Google since the beginning, and remains so as the system grows and evolves. Today dozens of Google engineers use Python, and were looking for more people with skills in this language. This guide is filed with examples, screenshots, and links to more detailed information. Everything you need is here. Inside this guide you will learn:
The History of Python
Benefits of Python
Installing an IDE
Running a Program
Command-Line
Building a Program
Variables
Numbers
Strings
Variable Projects
Operators
Loops
Lists and Tuples
Functions
Classes
Learning Python will set you apart as a serious programmer who is up for any challenge. This guide is less than 81 pages and has everything you need to get started. Get started today and download this guide. Your future is waiting. Praise for Python Programming: Learn Python Basics in 81 Pages or Less: A must have introduction to the language. Python can be pretty hard to learn if you dont have the write teaching, but this ebook will get you started of right. - Jerry M. For a newbie like me, this was simple to follow and understand. -Wayne Evans I downloaded this because Im new to computer programming and look to improve my tech skills. The book is fairly short but is well explained and easy to understand. The book clearly details the basics of python programming in a way which beginner can run with. If you are new to python then this book is a great

place to start. Good book. -Raphael B. Harris
