

Experimental Mechanics of Fiber Reinforced Composite Materials (Society for Experimental Stress Analysis monograph)

Hardcover book, no jacket as issued. By the Society for Experimental Stress Analysis, Monograph No. 4. Chapters by noted experts, including on mechanics of composite materials, prediction of lamina properties, stress and strain transformation, stress-strain relations, mechanical properties of the laminate, elastic stress, strain analysis, birefringent coatings, holographic, composite test methods, failure characteristics, effects of moisture, and more.
