

Blue Moon Mating

The actions of a wolf shifter gone rogue forces Ben Maxwell, the alpha of the Catskill Mountain wolf pack, to act on a vision of his mate quicker than he planned. He discovers that she will be at an aerial acrobat performance several days before Halloween, which also coincides with the blue moon. Unable to attend himself, he sends his best friends and betas, Adam and Devon, to seek Sandy out. He knows he'll be sharing her with them and trusts them to care for her in his stead. But Sandy is a human, and finding out that not only are shifters real, but that she's mated to not just one, but three of them, is a lot to take in. Can Ben and his betas convince her to accept her place at their side before the pheromones caused by a blue moon on Halloween draws every shifter in the area to her door, including the rogue wolf that would rather see her dead than in the arms of anyone else?
