

## Insectivorous Plants (Annotated)

\*This Book is annotated (it contains a detailed biography of the author). \*An active Table of Contents has been added by the publisher for a better customer experience. \*This book has been checked and corrected for spelling errors.

Insectivorous Plants is a book by British naturalist and evolutionary theory pioneer Charles Darwin, first published on 2 July 1875 in London. Part of a series of works by Darwin related to his theory of natural selection, the book is a study of carnivorous plants with specific attention paid to the adaptations that allow them to live in difficult conditions.
